RUST PREVENTION FLUID MEDIUM

AMALIE Rust Prevention Fluid - Medium is formulated for use in applications requiring a robust and effective level of protection that may be applied by brush, roller, dip or spray. This fluid contains various chemical additives that will prevent corrosion and yellow staining on sheet metal and will prevent the formation of white rust on galvanized steel. The **AMALIE Rust Prevention Fluid - Medium** will give a more stable protective film, which is suitable for protecting surfaces for longer periods of time. **AMALIE Rust Prevention Fluids** are available in two grades, light and medium.

TYPICAL PHYSICAL AND CHEMICAL PROPERTIES

ISO Viscosity Grade.....	22
API Gravity.....	34.5
Flash Point, °C.....	200
Viscosity @ 100, cSt.....	4.0
Viscosity @ 40, cSt.....	20.0
Viscosity Index.....	100
Pour Point, °C.....	-15
